PROFESSIONAL SUMMARY

Motivated computer engineering undergraduate at Queen's University with hands-on experience in software and hardware development through academic and extracurricular projects. Skilled in embedded systems, machine learning, and full-stack development, with strong knowledge of Python, C/C++, Java, and IoT. Adept at designing innovative solutions and collaborating across teams, and eager to apply technical expertise and problem-solving to a dynamic engineering internship.

EDUCATION

Queen's University

Bachelor of Applied Science, Computer Engineering

Kingston, ON

Sept 2023 – Apr 2027

- **Relevant coursework:** Introduction to Data Science, Fundamentals of Info Structure, Object Oriented Programming, Computer Architecture, Digital Systems, Software Dev Methodology, Operating Systems, Algorithms
- **Awards:** Ruddell-Albert Award (**\$60,000**) - Academic Excellence, 2023
- **Certifications:** IBM Artificial Intelligence Fundamentals, IBM Cloud Computing and Cybersecurity Fundamentals
- General Member, Queen's High-Performance Computing
Advancing skills in **parallel programming** and **distributed systems** through collaborative projects, including training a large-scale **deep learning model** in PyTorch DDP on the CAC HPC cluster for **AI/ML** research and competition preparation

EXPERIENCE

Software Developer

Queen's Engineering Society Software Development Team

Kingston, Ontario

Sept 2025 – Present

- Developed a **real-time interactive display** providing weather, bus routes, event calendar, room availability, news, and a photo booth using a Raspberry Pi 5 and IR touchframe
- Built a **full-stack application** with **React.js**, **HTML/CSS**, **Flask**, third-party APIs, and **Docker** for containerization and deployment via **Vercel**
- Applied **team-based SDLC practices** to design, prototype, and integrate hardware and software components

Web & Analytics Assistant

Royal LePage Signature Realty

Toronto, Ontario

May 2025 – Aug 2025

- Built a **professional website** using **IDX**, **HTML**, **CSS**, and **JavaScript**
- Monitored website traffic with **Google Analytics** to provide actionable insights for user engagement

Cafe Assistant

Rahier Patisserie

Toronto, Ontario

Sep 2022 – Jan 2024

- Provided excellent **customer service** in **fast-paced** environment, effectively communicating with **diverse clientele** and collaborated with team members to ensure **smooth operations**

PROJECTS

Hydroponic Garden Monitor | React, React Native, JSON, HTTP, Node.js, Expo Go, IoT

Sep 2024 – Dec 2024

- Built a **sensor-integrated** hydroponic garden for campus use using an **Arduino**, applying **Agile Scrum** practices
- Developed a **Reach Native mobile** application integrating **real-time WiFi data** to monitor pH levels, temperature, camera visuals

Human Activity Recognition | Python, scikit-learn, Tkinter, Pandas, HDF5

Jan 2025 – Apr 2025

- **Preprocessed** 100 Hz accelerometer data with **noise reduction** and 5-s **segmentation**; engineered statistical features for **model training**
- **Trained** and **deployed** a **logistic regression classifier** (94% accuracy, AUC 0.98) in a Tkinter app for **real-time CSV** classification and visualization

Queen's Hyperloop Machine Vision Sensor System | YOLOv5, Raspberry Pi, LabelImg

Jan 2024 – Apr 2024

- Designed and implemented an **embedded vision system** for a Hyperloop prototype
- **Trained** and deployed a custom **YOLOv5** model to detect potential obstructions in **real time (0.92 F1 score per class)**

TECHNICAL SKILLS

Languages: Python, Java, C/C++, SQL, JavaScript, HTML, CSS, Verilog, Assembly (Nios II), VHDL

Libraries: NumPy, Matplotlib, Pandas, PyTorch (YOLOv5), scikit-learn, Bootstrap

Tools: React, React Native, Node.js (npm), Bash, API integration (REST, JSON, HTTP), Git, Arduino, Raspberry Pi, VS Code, CLion, FPGAs, IoT, LTSpice, sensor integration, LED/LCD interfacing
